## ARIZONA NEWS.

### Territorial Items Gleaned From Our Exchanges and Condensed for Our Busy Patrons.

Flagstaff is preparing for a grand Fourth of July celebration.  
A few cases of scarlet fever were reported in Tucson last week.

It is reported that Dr. Goodfellow is about to sell his Sonora coal fields for \$200,000.

Prescott now has telephone connection with the Crowned King mining camp.

"Bucky" O'Neill is working forty men on a copper property in the Grand Cañon.

A. J. Pickrell has resigned the management of the Providence Gold Mining company.

A new 3,100 pound safe has recently been placed in the office of the territorial auditor.

It is stated that R. Whitehead of Pearce will run a stage between that camp and Wilcox.

Phoenix is offering a bonus of land to eastern parties to build a \$250,000 smelter at that city.

The fourteenth annual session of the Grand Lodge, Knights of Pythias, will be held in Kingman, May 26.

The A. O. U. W. lodges in Tucson are now asking for bids for the erection of their magnificent hall in that city.

The water company at Tucson has just put in 3,000 feet of new pipes and otherwise improved the system for summer service.

Many prospectors have gone into the Walapai mountains in search of lost mines, of which that country has a good number.

Colin Campbell is putting up twenty five miles of telephone line, connecting both his large ranches with the city of Nogales.

The total current expense for the first three months of 1897, as allowed by the board of supervisors of Yavapai county, was \$13,272.92.

Feed on the ranges is reported everywhere as being fairly plentiful but very dry, particularly so in the southern counties of the territory.

P. W. O'Sullivan, late register of the Prescott land office, it is said, will enter into a law partnership with H. D. Ross, district attorney of Yavapai county.

The Star states that the Southern Pacific company's pay roll in Tucson amounts to \$50,000 a month, the greater part of which goes directly into the channels of trade.

Thomas Carney, a hobo, attempting to steal a ride on the S. F. & P. at Congress Junction, missed his footing and had a leg cut off by the wheels on the 14th instant.

S. S. Patterson, manager of the Jensen cattle ranch in Tonto Basin, cut his throat with suicidal intent a few days since, at the ranch of B. F. Chute on the upper Salt river.

A hotel keeper is badly wanted in Oro Blanco. Suitable premises can be rented low from Mr. H. F. Diehl of that place, who has other fish to fry and cannot attend to it himself.

Thatcher Brothers, of Pueblo, Colo., have closed out their range business in southern Yavapai county, receiving for their cattle \$10 per head all round, excluding the calves of 1897.

A Kingman telegram of the 13th instant says: Information was received here that an Indian killed Charles Monaghan, Charles Nelson and two other men at El Dorado Cañon, Nev.

It is rumored that the Commonwealth Mining and Milling company lately refused an offer of \$8,000,000 for the Pearce mine. It is claimed that there is in sight in the mine \$32,000,000 worth of ore.

The bids for the Indian beef contracts at the various agencies were opened in Chicago on the 14th instant. W. E. Travis was the lowest

bidder on the San Carlos contract, his figures being \$2.74 per hundred.

Col. A. O. Crane of Globe, who has for a few months been an inmate of the insane asylum in consequence of a peculiar hallucination, died recently on board a train near El Paso, as he was being taken east.

The Union Pass country in Mohave county is producing wonderfully rich ore. Frank Holmes has on the dump of the Minnie claim nearly one hundred sacks of ore that will average \$1,000 to the ton.

Hop Sing, old vegetable Chinaman, was murdered at Sanford last week. The body was found buried in the sand near the house in the Senoita, with two bullet holes through it. The murderers have not yet been found.—Nogales Vindicator.

A recent report from Oro Blanco says there is great excitement over an immensely rich strike on the lower levels of the Tres Amigos gold mine. In a large body of high grade ore there is a two-foot streak of ore which yields over one dollar a pound.

The Montezuma Mining and Milling company, capitalized at \$1,000,000, has lately been incorporated under the laws of Arizona. The company has taken hold of the Henry Forest group of mines in the Hauchucas, said to be the most promising group of mines in Arizona.

A. J. Howell, manager of the Cross-7 Cattle company, of Tonto, who was in town for several days last week, returned home on Sunday. The Cross-7 outfit is engaged in gathering cattle for a drive to Holbrook. T. S. Holland of New Mexico, is the purchaser, and the contract calls for stock cattle, yearlings and up, to be delivered at Holbrook on May 20.—Globe Silver Belt.

A Prescott attorney is said to have a canary bird case involving \$5 damages. It seems that one lady sold another a rooster canary bird; the supposed rooster never sang a note and soon astonished its new owner by laying four eggs. The purchaser does not believe the bird to be a rooster and seeks to recover the \$5 paid for the bird. Now here will be a chance for some fine law point play.—Courier.

The Copper Wedge mine, located three miles north of Globe, owned by Charles Banker, is one of the promising copper claims of Globe district. There are four men at work. The main development is a tunnel in 160 feet, and which will be driven to a length of 250 feet to strike the ledge at a depth of twenty feet. The ore after being sorted runs 25 per cent in copper and is very desirable for smelting.

The following sensible remarks are made by the Prescott Courier: If some enterprising man with living water on his ranch would go into the fish business, make ponds and stock them with channel cat fish, he would succeed and make money. The blue cat is a fine food fish, very hardy and a quick grower. It is unfortunate that so many people got disgusted with fish culture through starting with worthless German carp.

A curious freak of nature developed itself in the city. A Mexican woman has become the mother of four children. One is almost pure white; one is a full developed Indian, another a moon-eyed Chinese and the other a negro of the darkest type. If any city in the territory or the world for that matter, can show a more hybrid output, let it speak out. The mother and children are doing well.—Tucson Citizen.

The Bisbee Water company is digging a new ditch and reservoir about a mile and a half up Tombstone cañon. It will be twenty feet long and will be boxed seven feet wide at the bottom and four feet at top, making a reservoir that will furnish many gallons per day. The reservoir will tap the springs which have been in existence above town for years. At present the water is pouring into the ditch in large streams from the old veins.

## TELEGRAPHIC NEWS.

### Late Telegrams Condensed for Readers of The Argus.

Firebugs are burning grain elevators in South Dakota.

Fire wiped out the little village of Marshland, Wis., Sunday night.
